## Culture-Based Depression Screening/Evaluation in Chinese American Immigrants

### Objectives for this webinar:

- Understand the risk of depression and suicide among the Chinese-American population versus the general population.
- Recognize culture-specific symptoms of depression and typical Chinese immigrant stressors that can trigger depression.
- Learn how to integrate culturally sensitive assessments for the Chinese immigrant population.

**Thursday, September 29, 2022**

**3:00 – 4:00 pm**
